AGAMEMNON

After a gruelling ten year siege the Greek leader Agamemnon has destroyed the ancient and powerful city of Troy. He returns home carrying vast treasure and a captive Trojan princess, expecting a hero's welcome.

But in ten years his kingdom Argos has changed; his beautiful wife Clytemnestra has changed. Waiting for Agamemnon is the blood curse incurred by generation after generation of his brutal family. His own deeds and the deeds of his forebears demand retribution and retribution's agent is Argos' psychotic queen.

In this compelling adaptation of Aeschylus' 2500-year-old drama, enter the imagined world of the heroes of Troy - a world navigated with magic and ritual, where every shadow is potent and every silence murmurs with "the gods of the hearts and the heat of men". Possessed by daemons or simply given over to their own darker impulses Agamemnon, Clytemnestra and the captive Cassandra are all engaged in an eerie dance, inexorably moving towards destruction.
