

NORTHERN TABLELANDS MUSIC INDUSTRY ARCHIVE: 1970-1990 NEWSLETTER

No. 5 (Nov. 2024)

Hi folks

The Archive's reformatting and updating project has continued throughout the previous 12 months. There has not been work undertaken as I would have liked and hence just one newsletter this year.

Some glitches have been fixed and minor errors corrected, while a lot of new music (see below) and many new images have also been uploaded. To date the Artists/Band pages from A to K-L, and S, are **Phase 1**-completed. The remaining entries will hopefully be completed before April next year. The new music uploads include several full albums (see Music Hub pages).

Another primary objective has been to insert internal hyperlinks. This will make it easier for visitors to navigate to other pages should they wish to. Any inactive external links have been removed (which is especially the case with MySpace, which now has virtually nothing of value left for the NTMIA).

Some new information and updates can be found in a few entries, but it is clear that there are still a number of artists and bands requiring greater attention. An attempt will be made to fix these in the New Year (**Phase 2**). The Northern Tablelands Entertainment History section has also undergone some modification, and will have some new research added as well.

Have a great Xmas and New Year. I'll catch you again (hopefully) in April '25.

Cheers, Clay (30 Nov. 2024)
